

REMARKS

Reconsideration of the application in view of the above amendments and the following remarks is requested. Claims 1--13 are now in this application.

As suggested by the Examiner in a telephone interview dated May 3, 2001 claims 15 and 16 have been cancelled. It is further noted that "upright releasable spacing means comprises at least one upright releasable spacing means. For example just one releasable strap would be sufficient to prevent the frame from laterally compressing, and thereby maintaining an operable position.

It is respectfully suggested that the application as amended now conforms to the guidelines suggested by the Examiner in the May 3, telephone interview and accordingly, the application should be allowed.

As this response is timely submitted no fees are enclosed.
